Epson **EB-X14G** projector

DATASHEET

3000 lm | XGA | 3-in-1 USB display | 1 W | kg 2.3

Make your business' budget go further with the Epson EB-X14G – the high-quality 3,000-lumen XGA projector with a wide range of features and an affordable price tag.

Packed with user-friendly features, this projector is straightforward to set up and use, allowing you to focus on delivering first-class business presentations. With equally high White and Colour Light Output of 3,000 lumens, and 3000:1 contrast ratio, you can achieve a bright, sharp image. Epson's 3LCD projector engine also ensures natural, accurate colour reproduction. The 3-in-1 USB Display feature means that one cable is all you need for picture, sound and page up/down control – it's the fastest way to display what's on your PC or Mac.

Aligning the picture is quick and easy with both automatic vertical keystone and manual horizontal keystone button. The direct power on/off feature enables the projector to be turned on by the wall switch – very convenient when ceiling mounted. The instant-off function means no cool-down time is required, allowing you to move on to the next meeting without delay.

Peace-of-mind is also guaranteed with the projector's security features, such as the Kensington lock and password protection. The EB-X14G also lets you keep running costs low and cut maintenance time with the long lamp life of up to 5,000 hours.

KEY FEATURES
